1. Report Purpose, Availability, and Distribution

PJ's College of Cosmetology prepares this Annual Security Report (ASR) for its Louisville, Kentucky campus. PJ's is a nonresidential, clock-hour cosmetology institution. The Louisville campus does not provide dormitories or other on-campus student housing and does not establish, sponsor, recognize, or maintain any student organizations, including fraternities, sororities, Greek-letter organizations, clubs, or other student groups. This report provides required campus safety policies, procedures, programs, and Clery crime statistics for calendar years 2023, 2024, and 2025.

Compliance version: reviewed September 10, 2026 against the 2026-2027 Federal Student Aid Handbook, current U.S. Department of Education Title IX enforcement guidance, Stop Campus Hazing Act requirements, and current Kentucky law.

By October 1 each year, PJ's distributes this report or an individual notice of its availability to all enrolled students and current employees. When the report is provided electronically, the notice must identify the exact electronic address, briefly describe the report's contents, and state that a paper copy will be provided upon request. Prospective students and prospective employees receive notice of the report's availability and may request a paper copy.

If PJ's materially revises a campus safety policy, procedure, or program after annual distribution and before the next ASR, the College will advise the campus community of the change rather than waiting for the next annual report.

Paper copies are available from the Louisville campus administrative office at 2911 S. Hurstbourne Pkwy, Louisville, KY 40220. Questions may also be directed to the campus at (502) 489-3757.

Emergency law enforcement / medical / fire	911

3. Clery Geography and Campus Characteristics

Institutional profile for this ASR: PJ's Louisville is a clock-hour cosmetology school operating from a nonresidential instructional campus. It has no dormitories or on-campus student housing and no student organizations, including fraternities, sororities, Greek-letter organizations, clubs, or other student groups. Those facts narrow which housing- and organization-specific Clery provisions apply, but they do not remove the campus's general Clery, VAWA, emergency-notification, crime-statistics, or hazing obligations.

For crime-statistics purposes, Clery geography includes the Louisville campus buildings and property and public property within or immediately adjacent to and accessible from the campus. The 2026 Campus Safety and Security Survey identifies no on-campus student housing facilities and no noncampus buildings or properties for this campus.

The Louisville campus has no dormitories or other on-campus student housing. Therefore, the Clery missing-student notification requirements and the annual fire safety report/fire-log requirements that apply to institutions with on-campus student housing do not apply to this campus. PJ's still maintains ordinary building fire, evacuation, and emergency procedures for its instructional facility.

PJ's Louisville does not establish, sponsor, recognize, or maintain any student organizations and therefore has no off-campus locations of officially recognized student organizations to monitor through local police agencies. If PJ's later establishes or recognizes a student organization with qualifying off-campus property, the College will reevaluate its Clery geography and monitoring obligations.

4. Reporting Crimes and Emergencies

Emergencies should be reported immediately by calling 911 and notifying school staff. Non-emergency criminal activity, suspicious activity, or other safety concerns should be reported promptly to the Campus Director, Campus Security Director, another responsible school official, and/or the appropriate local law-enforcement agency.

PJ's encourages accurate and prompt reporting of all crimes to law enforcement when the victim elects to report or is unable to make the report. Reports to school officials are reviewed for appropriate response, possible disciplinary action, inclusion in Clery statistics, and whether a timely warning or emergency notification is required.

Voluntary and confidential reporting

PJ's will protect information about victims and witnesses to the extent permitted by law and consistent with its obligations to investigate, respond, and disclose Clery statistics. Personally identifying information is not included in published Clery statistics. The existing PJ's policy states that the College does not employ pastoral or professional counselors.

5. Preparation of Annual Crime Statistics

The College compiles statistics from reports made to campus security authorities and requests statistics from local/state law enforcement for applicable Clery geography. For the 2026 ED survey, PJ's reported that law-enforcement statistics were combined with statistics collected by campus security authorities. The statistics in this ASR must match the institution's final ED submission.

A reported crime may be removed from Clery statistics as 'unfounded' only when sworn or commissioned law-enforcement personnel fully investigate the report and formally determine it to be false or baseless.

6. Timely Warnings

PJ's issues a timely warning when a Clery crime reported to the institution is considered by the College to represent a serious or continuing threat to students or employees. The Campus Security Director or designee evaluates the known facts, nature of the crime, continuing danger, and risk of compromising law-enforcement efforts. Warnings may be distributed by email, text, memorandum, verbal announcement, or other methods reasonably calculated to reach the campus community.

A warning may include the nature, date, time, and general location of the incident; safety precautions; a suspect description when appropriate; and other information needed to help members of the campus protect themselves. PJ's will withhold victim-identifying information from a timely warning.

7. Emergency Response, Notification, and Evacuation

Upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees on campus, PJ's will, without delay and taking into account the safety of the community, determine the appropriate segment of the campus to notify, determine the content of the notification, and initiate the notification unless responsible authorities determine that doing so would compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

PJ's tests its emergency response and evacuation procedures at least annually through drills or exercises and documents the test, including a description, date, time, and whether it was announced or unannounced. Campus personnel assist students, clients, and staff during an evacuation and direct occupants to designated safe areas based on the circumstances. In conjunction with at least one annual test, PJ's publicizes its emergency response and evacuation procedures to students and employees and maintains documentation of each test and follow-through activity.

8. Security of and Access to Campus Facilities

During normal business hours, the Louisville campus is open to students, employees, clients, contractors, parents, and invited visitors. During non-business hours, access is restricted to authorized persons. Security cameras and an alarm/security system are used at the campus. Maintenance and safety concerns affecting security should be reported to campus administration for correction.

9. Campus Law-Enforcement and Security Authority

PJ's does not maintain a sworn campus police department. College personnel do not have general police arrest authority. Criminal matters are referred to the appropriate state or local law-enforcement agency. PJ's cooperates with law enforcement when incidents are reported and makes a good-faith annual request for Clery crime statistics. The source materials reviewed for this report do not identify a written memorandum of understanding with local law enforcement for investigation of criminal offenses.

10. Security Awareness and Crime Prevention

PJ's provides safety and crime-prevention information to students and employees. New students receive safety information during orientation. Safety information includes personal awareness, securing property and vehicles, avoiding isolated areas, responsible alcohol use, promptly reporting suspicious activity, pedestrian safety, and emergency contacts. PJ's also conducts an emergency response/evacuation test at least annually and documents the exercise.

11. Alcohol, Drugs, and Drug-Free Schools Requirements

PJ's prohibits the unlawful possession, use, manufacture, sale, or distribution of illicit drugs and alcohol by students and employees on College property or as part of College activities. Alcohol possession or use on campus is prohibited by College policy. Kentucky law prohibits a person under age 21 from purchasing or possessing alcoholic beverages for personal use. PJ's enforces its institutional policies and refers suspected violations of applicable federal, state, or local law to law enforcement as appropriate.

PJ's distributes drug and alcohol prevention information annually to students and employees, including standards of conduct, legal and institutional sanctions, health risks, and available counseling/treatment resources. PJ's also maintains the separate Drug and Alcohol Abuse Prevention Program and biennial-review documentation required by federal law.

12. Sexual Assault, Dating Violence, Domestic Violence, and Stalking

PJ's prohibits sexual assault, dating violence, domestic violence, stalking, sexual harassment, and retaliation. The College provides prevention and awareness information and responds to reports under its applicable Title IX and student/employee conduct procedures.

Primary prevention and awareness programming is provided for incoming students and new employees, with ongoing prevention and awareness campaigns for students and employees. Programming identifies dating violence, domestic violence, sexual assault, and stalking as prohibited conduct; addresses applicable definitions and consent; provides safe and positive bystander-intervention options; discusses risk reduction and warning signs; and explains PJ's procedures and resources following a report.

Title IX regulatory framework

As of this 2026 report, the U.S. Department of Education is enforcing the 2020 Title IX regulations. The 2024 Title IX regulations were vacated nationwide in January 2025 and are not in effect. PJ's Title IX procedures should therefore be administered consistently with the 2020 Title IX rule and other applicable federal and state law.

Definitions used for Clery/VAWA reporting

Term	Summary
Dating violence	Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim, evaluated based on the reporting party's statement and factors such as length, type, and frequency of interaction.
Domestic violence	A felony or misdemeanor crime of violence committed by a current or former spouse or intimate partner, a person with whom the victim shares a child, a person similarly situated to a spouse under applicable law, or another person protected under domestic/family violence law.
Stalking	A course of conduct directed at a specific person that would cause a reasonable person to fear for safety or suffer substantial emotional distress.
Sexual assault	An offense that meets the Clery/FBI definitions of rape, fondling, incest, or statutory rape.
Consent	PJ's applies its published sexual misconduct/Title IX policy and applicable law when evaluating consent. Consent must be voluntary and cannot be obtained through force, threat, coercion, or from a person who is incapable of consent under the circumstances.

Applicable Kentucky definitions

For the Louisville campus, PJ's uses applicable Kentucky definitions when providing prevention information and explaining rights and options.

Dating violence and abuse - KRS 456.010 includes specified abusive conduct between persons who are or have been in a dating relationship.

Domestic violence and abuse - KRS 403.720 includes specified abusive conduct between family members or members of an unmarried couple.

Sexual assault - Kentucky law addresses rape, sodomy, sexual abuse, and related offenses primarily in KRS Chapter 510, with incest addressed in KRS 530.020.

Consent - KRS 510.020 addresses lack of consent, including forcible compulsion and incapacity to consent, for offenses under Kentucky's sexual-offense statutes.

Stalking - KRS 508.130 supplies the current Kentucky statutory definition used with the applicable stalking offenses.

Reporting and immediate assistance

- Call 911 when there is an immediate threat or need for emergency medical assistance.
- Report to the Campus Director, Campus Security Director, or Title IX Coordinator.
- PJ's will assist a complainant who requests help notifying law enforcement.
- Victims are encouraged to preserve evidence and seek prompt medical attention. Evidence may be important for criminal, civil, or institutional proceedings.
- A report to law enforcement is not required in order to request supportive measures from PJ's.

Written information, supportive measures, and accommodations

When PJ's receives a report of dating violence, domestic violence, sexual assault, or stalking, the College provides written information about rights and options, including existing medical, counseling, health, mental-health, victim-advocacy, legal, visa/immigration, student financial aid, and other services available within the institution and in the community, as applicable; options for law-enforcement reporting and protective orders; and available academic, attendance, transportation, working, or other supportive measures. Reasonably available measures may be provided whether or not the victim chooses to report to police.

Disciplinary proceedings

PJ's disciplinary proceedings for dating violence, domestic violence, sexual assault, and stalking are intended to be prompt, fair, and impartial; are conducted by officials who receive annual training on these offenses and on how to conduct an investigation and hearing process that protects victim safety and promotes accountability; provide the complainant and respondent timely and equal access to information used in disciplinary meetings and hearings; provide timely notice of meetings at which either party may be present; and provide both parties the same opportunity to have an advisor of their choice present as permitted by the applicable procedure. PJ's uses the preponderance of the evidence standard. Both parties receive simultaneous written notice of the result, available appeal procedures, any change to the result, and when the result becomes final. Student sanctions may include warning or reprimand, disciplinary probation, disciplinary suspension, and disciplinary expulsion. Employee sanctions may include discipline up to and including termination.

Confidentiality and retaliation

PJ's prohibits retaliation against a person for reporting or participating in a proceeding. The College protects the confidentiality of victims and other parties to the extent permitted by law and will not include personally identifying information in Clery disclosures.

National resource: RAINN National Sexual Assault Hotline, 800-656-HOPE (4673).

13. Sex-Offender Registration Information

Information concerning registered sex offenders in Kentucky may be obtained from the Kentucky State Police Sex Offender Registry at <https://kspso.state.ky.us/>. Federal law requires states to make certain registration information available concerning registered sex offenders who are enrolled at or employed by institutions of higher education.

14. Hazing Policy - Stop Campus Hazing Act

PJ's prohibits hazing. For purposes of this policy and federal Clery reporting, hazing includes any intentional, knowing, or reckless act committed by a person, individually or with others, against another person or persons, regardless of willingness to participate, that occurs in connection with initiation into, affiliation with, or maintenance of membership in a student organization and that causes or creates a risk, above the reasonable risk encountered in the course of participation in PJ's or the organization, of physical or psychological injury.

PJ's does not establish, sponsor, recognize, or maintain any student organizations at the Louisville campus, including fraternities, sororities, Greek-letter organizations, clubs, athletic organizations, or other student groups. The federal Stop Campus Hazing Act definition of a student organization is broader than institutionally recognized organizations and can include a group in which two or more members are enrolled students even if the group is not established or recognized by

PJ's. Accordingly, PJ's continues to prohibit hazing and maintains the required hazing reporting, investigation, prevention, awareness, and Clery statistical processes.

Reporting and investigation of hazing

- Report suspected hazing promptly to the Campus Director or Campus Security Director. Call 911 for an immediate threat or medical emergency.
- Reports are documented and assessed for immediate safety needs, Clery reporting, law-enforcement notification, and interim protective measures.
- PJ's investigates alleged hazing under its student conduct procedures. The College may interview involved persons, review available records and communications, and coordinate with law enforcement when appropriate.
- Retaliation for making or participating in a hazing report is prohibited.

Kentucky law

Kentucky's hazing statutes are found at KRS 508.180 through 508.186. Kentucky law defines hazing for purposes of those statutes and establishes criminal offenses for hazing in the first and second degree. PJ's institutional hazing policy and the federal Clery definition apply independently of whether conduct results in a criminal charge.

Hazing prevention and awareness program

PJ's provides a research-informed, campus-wide hazing prevention and awareness program appropriate to its nonresidential clock-hour cosmetology environment. The program is designed to reach students, staff, and faculty and addresses PJ's hazing prohibition, how to report suspected hazing, the investigation process, applicable Kentucky law, warning signs and risk factors, bystander intervention, ethical leadership, and ways to build positive group cohesion without hazing. Because PJ's has no student organizations, the program is presented as part of the institution's broader student-conduct and campus-safety education rather than as student-organization or fraternity/sorority programming. PJ's retains dated evidence of program content and delivery for its compliance file.

Campus Hazing Transparency Report

PJ's has no student organizations and identified no student organization found responsible for a hazing violation during the period applicable to this 2026 report. Accordingly, there are no Louisville hazing findings to disclose, and no Campus Hazing Transparency Report publication is required for this period. If a qualifying finding of responsibility occurs in the future, PJ's will publish and update the Campus Hazing Transparency Report as required by federal law.

15. Crime Statistics - Calendar Years 2023, 2024, and 2025

The following statistics reflect PJ's confirmed Louisville campus data for the 2026 reporting cycle. PJ's has confirmed zero reportable statistics for calendar years 2023, 2024, and 2025 in the applicable On Campus and Public Property categories. The Louisville campus is nonresidential: it has no on-campus student housing and no student organizations, including no fraternities, sororities, or Greek-life organizations.

Primary criminal offenses - On Campus

Offense	2023	2024	2025
Murder/non-negligent manslaughter	0	0	0
Manslaughter by negligence	0	0	0
